

GCC BRISA-160

Glass sliding door system for doors up to 60kg in weight. This ingenious system can be soffit or side fixed, comes with soft-open and soft-close as standard and can also be used as a sliding shower door.

No notching is required to fit your glass panel, making the Brisa a simple and effective solution for glass sliding doors. Available in a natural anodised finish and suitable for **10mm glass**.

When side fixing, it can accommodate either wall or glass mounting (with glass mount kit). Also fits between walls and supports a fixed panel for shower applications.
